

Performance review phrases for quality of work: 24 examples by rating and situation (2026)

Last checked 5 October 2026. Fill in the [BRACKETS] with your own facts.

Exceeds what the role needs

Work is accurate and complete the first time: for example, [THE REPORT OR TASK].

Checks their own work before handing it over, so very little comes back for correction: for example, [PIECE OF WORK].

Sets a standard others copy: for example, [WHAT THE TEAM NOW DOES BECAUSE OF THEM].

Notices details others miss: for example, [THE ERROR OR GAP THEY CAUGHT].

Meets what the role needs

Work is accurate and needs only the usual checking: for example, [THE TASK].

Follows the agreed steps and standards on each task: for example, [THE STANDARD].

Completes tasks in full and notices when something is missing: for example, [WHAT THEY NOTICED].

Corrects errors quickly once they are pointed out: for example, [THE ERROR AND THE FIX].

Below what the role needs

Some work needed correcting before it could be used: for example, [WHAT WAS CORRECTED AND HOW OFTEN].

Errors reached [THE CUSTOMER OR THE NEXT TEAM] on [NUMBER] occasions: for example, [THE CASE].

The finished work often differs from what was asked: for example, [THE REQUEST AND WHAT CAME BACK].

Checking is not yet a habit: for example, [AN ERROR A QUICK READ WOULD HAVE CAUGHT].

Accuracy and checking

Exceeds

Checks their own work against the brief before handing it over, so errors rarely reach the next step: for example, [PIECE OF WORK].

Meets

Finds and fixes their own mistakes before the work goes out: for example, [WORK].

Below

Errors in [TYPE OF WORK] have reached the customer or the next team. I would like a check before it leaves them: for example, [ERROR AND DATE].

Below

Misses details in the brief, so work comes back for changes: for example, [TASK AND WHAT WAS MISSED].

Deadlines and standards

Exceeds

Delivers to a high standard on time and flags risks to the standard early: for example, [PROJECT].

Meets

Delivers work to the agreed standard and by the agreed date: for example, [WORK].

Below

Work often needs more than one round of corrections before it meets the standard: for example, [WORK AND NUMBER OF ROUNDS].

Below

Delivered [WORK] after the agreed date without warning me. I would like to hear early if a date is at risk: for example, [DATE].

Learning from feedback

Exceeds

Writes down what went wrong and what changed, and shares it so others do not repeat it: for example, [CASE].

Meets

Takes feedback on their work and applies it next time: for example, [FEEDBACK AND THE NEXT PIECE OF WORK].

Below

The same kind of error has come back after feedback: for example, [ERROR AND DATES]. I would like us to agree a check.

Below

Seems unsure what a good result looks like for [TYPE OF WORK]. I will share examples, and I would like them to ask when unsure: for example, [CASE].
